## **Our Mission**

At JapaneseHeadSpaTraining.co.uk, our mission is to revolutionise the wellness industry by providing top-tier Japanese Head Spa equipment and comprehensive training programs. We are dedicated to empowering individuals and businesses to excel in the art of Japanese Head Spa therapy, regardless of their prior experience. Our goal is to support both new entrepreneurs and established businesses in enhancing their services and boosting their revenue.

## **Commitment to Quality and Innovation**

We are committed to delivering the highest quality products, meticulously designed to meet the needs of professional therapists and spa owners. Our extensive range includes:

- **Portable Japanese Head Spa Units:** These units are perfect for flexibility and convenience, allowing therapists to offer head spa services anywhere without the need for plumbing connections. The built-in 50-litre water tank ensures ample water supply, while the 20-litre waste water storage tank saves space and eliminates the need for an external waste tank.
- **Luxury Japanese Head Spa Beds:** Designed for ultimate comfort and relaxation, these beds provide a premium experience for clients.
- **Scalp Tools:** Precision instruments that enhance the effectiveness of scalp treatments.
- **Specialist Hair Care Products:** Including shampoos, conditioners, hair masks, oils, and serums, all formulated to complement the head spa experience.
- **Scalp Analysis Camera Systems:** Advanced technology that allows for detailed scalp assessments, helping therapists provide personalised treatments.

With next-day delivery available across the UK, we ensure that our clients have access to the tools they need without delay. We can also provide express shipping services to our international clients.

## **Comprehensive Training Programs**

Our training programs are designed to be flexible and accessible, catering to the diverse needs of our clients. We offer:

- **Online Courses:** Our online training modules are comprehensive and user-friendly, allowing you to learn at your own pace from the comfort of your home. These courses cover everything from basic techniques to advanced head spa therapies, ensuring a thorough understanding of the practice.
- **In-Person Training:** For a more personalised experience, our expert tutors will come to your location. This hands-on training is tailored to your specific needs and schedule, providing practical experience and immediate feedback. Our tutors are experienced professionals who bring a wealth of knowledge and expertise to each session.
- **Group Seminars:** Held periodically in major cities across the UK and internationally, these seminars offer an opportunity to learn from industry leaders and network with other professionals. These sessions cover a wide range of topics, from the fundamentals of head spa therapy to the latest trends and techniques in the industry.

# MISSION

...

## **Embracing Japanese Heritage**

We deeply value the rich cultural heritage of Japan, which forms the foundation of our approach to head spa therapy. Our commitment to authenticity means that we meticulously preserve traditional Japanese techniques that have been passed down through generations. These ancient practices are renowned for their ability to promote scalp health, enhance relaxation, and improve overall well-being.

## **Traditional Techniques**

Our methods are rooted in time-honoured Japanese head spa rituals, which focus on stimulating the scalp, improving blood circulation, and promoting hair health. These techniques include precise scalp massages, the use of specialised tools, and the application of natural, high-quality products. By adhering to these traditional practices, we ensure that our clients experience the full benefits of authentic Japanese head spa therapy.

## **Modern Innovations**

While we honour the past, we also embrace the future by integrating the latest advancements in technology and methodology into our services. Our equipment, such as the Shimau Japanese Head Spa Unit, combines traditional craftsmanship with modern features like built-in water tanks and waste water storage systems. This blend of old and new allows us to offer a unique and effective head spa experience that meets contemporary needs.

## **Holistic Well-Being**

Our approach is holistic, addressing not just the physical aspects of scalp and hair health, but also the mental and emotional well-being of your clients. The serene and therapeutic nature of Japanese head spa treatments helps reduce stress, promote relaxation, and enhance overall quality of life. By combining ancient wisdom with modern science, we provide you with the skills to offer a comprehensive wellness experience for your clients that nurtures both body and mind.

## **Commitment to Excellence**

We are dedicated to maintaining the highest standards of excellence in all that we do. Our training programs and products reflect our commitment to quality, authenticity, and innovation. We continuously seek to improve and evolve, ensuring that our clients receive the best possible care and results.

By embracing the rich cultural heritage of Japan and integrating it with modern advancements, we strive to offer an unparalleled head spa experience that honours tradition while meeting the demands of today's world.

## **Building a Community**

We strive to create a supportive and inspiring community of head spa therapists who are passionate about making a positive impact on their clients' lives. Through our training programs and high-quality products, we aim to foster a network of professionals who share our commitment to excellence, authenticity, and compassion.

## **Vision for the Future**

Our vision is to be the leading provider of Japanese Head Spa equipment and training worldwide, known for our unwavering dedication to quality, innovation, and customer satisfaction. We aspire to set new standards in the wellness industry, helping our clients achieve their professional goals and deliver exceptional head spa experiences.

# QUESTIONS

...

Q. Do you offer finance/payment plans

A. No.

Q. What are the payment methods/terms?

A. Payment in full by bank transfer or credit/debit card

Q. Do you offer accredited training?

A. Yes, you will receive a CPD accredited certificate and you can obtain insurance.

Q. How much does it cost to have a face to face training day at my salon/home/location?

A. The fee will depend on your location, the number of trainees, and the date required.

Q. How long does delivery take?

A. Next day delivery is available for most items. Delivery terms will be confirmed before purchasing

Q. Do you deliver your products and training to countries outside the UK?

A. Yes. Contact us to discuss the options available.

Q. How much can I charge my clients?

A. The average cost to clients for this service is £100 per treatment.

Q. What if I do not have a salon/ I am not ready yet?

A. Many people are starting their own businesses offering this treatment from a room/garage at home. If you are renovating or sourcing a salon, get the package delivered to your home. Training can be completed online. Once you are set up, you can book our tutors for a practical training day.

Q. How long does the training take?

A. Online training can be completed in a day. If you upgrade to face to face training, this will take around 5 hours.

Q. Can I get insurance?

A. Yes, our course is accredited and insurance approved.

Q. Do I need any previous training or qualifications?

A. No, we provide the necessary training required to start offering treatments to the public and gain insurance.

Q. What does the course cover?

A. Health and safety, anatomy, history of Japanese head spa, the benefits, consultations, treatment preparation, treatment protocols, aftercare, machine maintenance and business/marketing.

Q. Do I need insurance/How much does it cost?

A. You are not required to have insurance to offer this treatment but from a professional point of view, we would recommend you have it. Prices vary from £100-£300 per year depending on your circumstances and insurance provider.

Q. Can I use the beds for other treatments?

A. Yes the beds come with special covers to be placed over the sink area so you can do massage and other treatments.
